

STRENGTHENING  
OUR  
COMMUNITY

*Imagine* a devoted  
community where  
neighbors are helping  
neighbors.

*Imagine* a devoted  
community where those  
able, give to anyone who  
has need.

*Realize* that we could  
live in such a community.

or volunteer your time!*

is a faith based organization, comprising several local churches in the area that strive to bring healing and peace to the community.

We act as a catalyst, mobilizing volunteers from local churches and around the community to set up periodic medical and provisional clinics.

Our clinics have several facets.

We meet the guests medical needs by performing medical screenings and examinations.

We meet the guests human needs by providing services such as food, clothing, school supplies, haircuts with a Day Spa and free family portraits.

Finally, we meet the spiritual needs by providing a companion for each guest for the day who is there to serve the guest, help them navigate the clinic and share Christ's love, through a message of hope and healing.
