

touched twice united

Our Mission

TTU is a Christ-centered, faith based organization that mobilizes volunteers from local churches to host free clinics which strive to meet the medical, spiritual, and physical needs of the guests -- all on a budget of zero dollars and zero cents.

A movement challenging Christian churches to meet the healthcare crisis

Did you know that 45 million Americans live every day without healthcare insurance? Take a look around...that's one out of every five people in this country who can't even afford their most basic health care needs.

Touched Twice equips churches to provide free clinics to meet people's medical, physical and spiritual needs. Over 100,000 have been served... and counting.

Touched Twice United acts as a catalyst, providing a complete manual to enable churches to mobilize volunteers to set up periodic high quality medical clinics. Our objective is to see TTU clinic ministries active in every county across our nation by 2011. In order for us to succeed, churches need to adopt the mission as part of their outreach strategy. We then hope to expand organically – moving to the next neighboring church, and so on. In this way, Touched Twice United will ultimately "put itself out of business" when the goal is reached: Every County Across the Nation by 2011.

"When you donate your time to one of these clinics you arrive with the expectation that you will be helping many others - - but when you go home you realize you've received much more in return."

- Volunteer doctor

HOW TO GET INVOLVED

- Clinic Awareness: simply being aware of a clinic in your area
- Clinic Booster: choose your level of involvement
- Clinic Volunteer: get involved - volunteer, donate supplies, be an advocate etc
- Clinic Leadership: start a clinic in your community
- Clinic Champion: show someone else how to lead a clinic

* Touched Twice United also benefits from your financial support
